printed and bound in Great Britain by
William Clowes Limited,
Beccles and London

Contents

NUMBER 1

1 *C. H. Eyles, N. Eyles and A. B. Franca.* Glaciation and tectonics in an active intracratonic basin: the Late Palaeozoic Itararé Group, Paraná Basin, Brazil

27 *Aleksandra Kostecka.* Calcite from the Quaternary spring waters at Tylicz, Krynica, Polish Carpathians

41 *B. G. Els.* Anomalous pebble size variation in an erosive, Late Archaean braided stream: the Middelvlei gold placer, Witwatersrand, South Africa

53 *Michel Lamboy.* Phosphatization of calcium carbonate in phosphorites: microstructure and importance

63 *A. T. Williams and P. Morgan.* Scanning electron microscope evidence for offshore–onshore sand transport at Fire Island, New York, USA

79 *Chandan Chakraborty.* Morphology, internal structure and mechanics of small longitudinal (seif) dunes in an aeolian horizon of the Proterozoic Dhandraul Quartzite, India

87 *James P. Hendry.* Calcite cementation during bacterial manganese, iron and sulphate reduction in Jurassic shallow marine carbonates

107 *K. L. Milliken and L. S. Land.* The origin and fate of silt sized carbonate in subsurface Miocene–Oligocene mudstones, south Texas Gulf Coast

125 *Soledad García-Gil.* The fluvial architecture of the upper Buntsandstein in the Iberian Basin, central Spain

DISCUSSION/REPLY

145 *C. Chakraborty.* Reconstructing random topography from preserved stratification

148 *C. Paola and L. Borgman.* (Reply)

151 Book reviews

155 Forthcoming papers

NUMBER 2

157 *Jeffrey L. Howard.* The statistics of counting clasts in rudites: a review, with examples from the upper Palaeogene of southern California, USA

175 *Peter K. Haff and Robert S. Anderson.* Grain scale simulations of loose sedimentary beds: the example of grain–bed impacts in aeolian saltation

199 *Steven G. Driese and Claudia I. Mora.* Physico-chemical environment of pedogenic carbonate formation in Devonian vertic palaeosols, central Appalachians, USA

217 *Michał Gruszczyński, Stanisław Rudowski, Julia Semil, Jan Słomiński and Jerzy Zrobek.* Rip currents as a geological tool

237 *Sharon S. Gabel.* Geometry and kinematics of dunes during steady and unsteady flows in the Calamus River, Nebraska, USA

271 *R. W. Renault.* Zeolitic diagenesis of late Quaternary fluviolacustrine sediments and associated calcrete formation in the Lake Borgoria Basin, Kenya Rift Valley

303 *J. E. Andrews, R. Riding and P. F. Dennis.* Stable isotopic compositions of Recent freshwater cyanobacterial carbonates from the British Isles: local and regional environmental controls

315 *Jeffrey F. Mount and David Kidder.* Combined flow origin of edgewise intraclast conglomerates:- Sellick Hill Formation (Lower Cambrian), South Australia

331 *A. G. Whitham.* Facies and depositional processes in an Upper Jurassic to Lower Cretaceous pelagic sedimentary sequence, Antarctica

DISCUSSION/REPLY

351 *J. M. Martin and J. C. Braga.* Depositional sequences and correlation of middle (?) to late Miocene carbonate complexes, Las Negras and Níjar areas, south-eastern Spain

353 *E. K. Franseen and C. Mankiewicz.* (Reply)

357 Book Review

358 Forthcoming papers

NUMBER 3

359 *P. J. Brenchley, R. K. Pickerill and S. G. Stromberg.* The role of wave reworking on the architecture of storm sandstone facies, Bell Island Group (Lower Ordovician), eastern Newfoundland

383 *M. T. Harris.* Reef fabrics, biotic crusts and syndepositional cements of the Latemar reef margin (Middle Triassic), northern Italy

403 *Terry T. Sami and Noel P. James.* Evolution of an early Proterozoic foreland basin carbonate platform, lower Pethei Group, Great Slave Lake, north-west Canada

431 *William M. Last.* Geolimnology of Freefight Lake: an unusual hypersaline lake in the northern Great Plains of western Canada

449 *P. Theriault and A. Desrochers.* Carboniferous calcretes in the Canadian Arctic

467 *G. H. Browne and D. M. Kingston.* Early diagenetic spherulitic siderites from Pennsylvanian palaeosols in the Boss Point Formation, Maritime Canada

475 *G. J. Orton and H. G. Reading.* Variability of deltaic processes in terms of sediment supply, with particular emphasis on grain size

513 *C. Jimenez de Cisneros and J. A. Vera.* Milankovitch cyclicity in Purbeck peritidal limestones of the Prebetic (Berriasian, southern Spain)

539 *Paul Enos and Bryan P. Stephens.* Mid-Cretaceous basin margin carbonates, east–central Mexico

557 *David J. W. Piper and Bruno Savoye.* Process of late Quaternary turbidity current flow and deposition on the Var deep-sea fan, north-west Mediterranean Sea

583 *D. G. Masson, Q. J. Huggett and D. Brunsden.* The surface texture of the Saharan Debris Flow deposit and some speculations on submarine debris flow processes

NUMBER 4

599 *Philip D. Osborne and Brian Greenwood.* Sediment suspension under waves and currents: time scales and vertical structure

623 *Dariusz Krzyszkowski.* Pleistocene glaciolacustrine sedimentation in a tectonically active zone, Kleszczów Graben, central Poland

645 *Kenneth D. Ridgway and Peter G. DeCelles.* Stream-dominated alluvial fan and lacustrine depositional systems in Cenozoic strike-slip basins, Denali fault system, Yukon Territory, Canada

667 *Tom Dreyer and Lars-M. Fält.* Facies analysis and high-resolution sequence stratigraphy of the Lower Eocene shallow marine Ametlla Formation, Spanish Pyrenees

699 *P. Anadón and R. Utrilla.* Sedimentology and isotope geochemistry of lacustrine carbonates of the Oligocene Campins Basin, north-east Spain

721 *Robert P. Fillmore.* Sedimentation and extensional basin evolution in a Miocene metamorphic core complex setting, Alvord Mountain, central Mojave Desert, California, USA

743 *R. N. Erlich, P. F. Farfan and P. Hallock.* Biostratigraphy, depositional environments and diagenesis of the Tamana Formation, Trinidad: a tectonic marker horizon

769 *Young Kwan Sohn and Sung Kwun Chough.* The Udo tuff cone, Cheju Island, South Korea: transformation of pyroclastic fall into debris fall and grain flow on a steep volcanic cone slope

787 *Christel A. Hartkamp, José Arribas and Amparo Tortosa.* Grain size, composition, porosity and permeability contrasts within cross-bedded sandstones in Tertiary fluvial deposits, central Spain

801 *John S. Bridge.* Description and interpretation of fluvial deposits: a critical perspective

811 Forthcoming papers

NUMBER 5

813 *R. A. Pickrill.* Shallow seismic stratigraphy and pockmarks of a hydrothermally influenced lake, Lake Rotoiti, New Zealand

829 *Rachel Wood, Andrey Yu. Zhuravlev and Chimed Tseren, Anaaz.* The ecology of Lower Cambrian buildups from Zuune Arts, Mongolia: implications for early metazoan reef evolution

859 *W. G. Nickling and J. A. Gillies.* Dust emission and transport in Mali, West Africa

869 *Reinhard Oehmig.* Entrainment of planktonic foraminifera: effect of bulk density

879 *Juan Fernández, Brian John Bluck and César Viseras.* The effects of fluctuating base level on the structure of alluvial fan and associated fan delta deposits: an example from the Tertiary of the Betic Cordillera, Spain

895 *Peter A. Scholle, Lars Stemmerik, Dana Ulmer-Scolle, Guiseppi Di Liegro and F. H. Henk.* Palaeokarst-influenced depositional and diagenetic patterns in Upper Permian carbonates and evaporites, Karstryggen area, central East Greenland

919 *Rune Mjøs and Edward Prestholm.* The geometry and organization of fluviodeltaic channel sandstones in the Jurassic Saltwick Formation, Yorkshire, England

937 *Raymond V. Ingersoll, Andrea G. Kretchmer and Peter K. Valles.* The effect of sampling scale on actualistic sandstone petrofacies

955 *H. D. Sinclair*. High resolution stratigraphy and facies differentiation of the shallow marine Annot Sandstones, south-east France

979 *J. Andrew G. Cooper*. Sedimentation in a river dominated estuary

1019 *Discussion/Reply*. An evaluation of shape indices as palaeoenvironmental indicators using quartzite and metavolcanic clasts in Upper Cretaceous to Palaeogene beach, river and submarine fan conglomerates. Werner K. Illenberger and Jacobus S. V. Reddering/Jeffrey L. Howard

1023 *Discussion/Reply*. Distal alluvial deposits in a foreland basin setting—the Lower Freshwater Molasse (Lower Miocene), Switzerland: sedimentology, architecture and palaeosols. P. Buurman/Nigel H. Platt and Beat Keller

1026 Forthcoming papers

NUMBER 6

1027 *Jeffrey F. Mount*. Formation of fluidization pipes during liquefaction: examples from the Uratanna Formation (Lower Cambrian), South Australia

1039 *Massimo Santantonio*. Facies associations and evolution of pelagic carbonate platform/basin systems: examples from the Italian Jurassic

1069 *Anne E. Mather*. Basin inversion: some consequences for drainage evolution and alluvial architecture

1091 *Andrew J. Russell*. Obstacle marks produced by flow around stranded ice blocks during a glacier outburst flood (jökulhlaup) in west Greenland

1113 *Ivars Reinfelds and Gerald Nanson*. Formation of braided river floodplains, Waimakariri River, New Zealand

1129 *J. L. Best and M. R. Leeder*. Drag reduction in turbulent muddy seawater flows and some sedimentary consequences

1139 *Douglas J. Sherman, Julian D. Orford and R. W. G. Carter*. Development of cusp-related, gravel size and shape facies at Malin Head, Ireland

1153 *Jay M. Gregg, Peter R. Laudon, Robert E. Woody and Kevin L. Shelton*. Porosity evolution of the Cambrian Bonneterre Dolomite, south-eastern Missouri, USA

DISCUSSION/REPLY

1171 *Gerald M. Friedman*. Depositional controls on Lower Carboniferous microbial buildups, eastern Midland Valley of Scotland

1171 *Neil A. H. Pickard*. (Reply)

1174 Forthcoming papers
